scottjonesdesign.co.uk

Principal Product Designer with more than 20 years in digital product and information design. I shape consumer experiences across mobile and web, combining hands-on design with product direction, team coaching and close partnership with product and engineering. At The Times I work across content, discovery and audio; previously, as Design Director at The Telegraph, I led a design team across its website and mobile apps.

---

**Times Media Group**

Aug 2022 - Present

**Principal Product Designer, Content** • June 2026 - present

- Lead product design work across article and content experiences, including live, comment and feature formats for iOS, Android and web.
- Shape navigation, reading and audio interactions with product, engineering and editorial colleagues, working through technical and editorial constraints.
- Mentor designers, lead design discussions and contribute to hiring and critique across the design team.

**Lead Product Designer, Discovery** • May 2025 - May 2026

- Led design in the Discovery squad, helping readers find more relevant journalism across the website and native apps.
- Contributed to The Times app redesign and the integration of the visual language and design system across platforms.

**Acting Head of Product Design** • three-month assignment in 2025

- Covered the Head of Product Design role while continuing to support design direction and collaboration across the team.

**Senior Product Designer** • Aug 2022 - May 2025

- Worked on newsletters, special editorial initiatives and customer acquisition, including checkout improvements; helped establish the product design team and mentor new hires.

---

**Dow Jones**

Mar 2017 - July 2022

**Senior UX/UI Designer, Factiva** • Mar 2020 - July 2022

- Redesigned a complex, data-rich research platform for mobile-first use, partnering with researchers, UX architects, product managers and engineers.

**Senior UX/UI Designer, Innovation** • Mar 2017 - Feb 2020

- Led design for WSJ Brief, a daily business news iOS app, from discovery and prototyping through usability testing and detailed UI design; managed design workload and contractors.

---

**Relevant strengths**

- Product direction and design craft
- Design team leadership and coaching
- Consumer mobile apps
- Content discovery and personalisation
- Complex interaction design
- Product and engineering partnership

---

**Freelance and Applied Works** 2015 - 2017

- Senior UI/UX Designer at Applied Works, delivering visual design with design and development teams. As a freelancer, designed a personalised financial news experience integrated with Symphony.

---

**The Telegraph** 2002 - 2015

**Design Director, Telegraph.co.uk** • 2004-2015

- Led the design team and worked with senior stakeholders on The Telegraph's digital product direction.
- Oversaw a website redesign, CMS integration and visual refresh across web and mobile; led design for iPad, iPhone and Android news apps.
- Combined design strategy, team management, external partnerships and project oversight from concept to implementation.

**Deputy Design Director; Senior Designer** • 2002-2004

- Developed commercial and editorial digital work, including microsites, digital marketing and ongoing enhancements to Telegraph.co.uk.

---

**Earlier experience and education**

- Earlier editorial and visual design roles at The Daily Telegraph, WV Publications and Haversham Publications.
- BTEC HND Graphic Design, University of Southampton; BTEC OND Graphic Design, South Essex College of Art and Design.
